EXPERIENCE

EDUCATION

EXPERIENCE

November 2023 - December 2023
Design Thinking Workshop

UI/UX DESIGN THINKING WORKSHOP

- The workshop was conducted by ReDI School, Denmark and TCS (Tata Consultancy Services), Denmark
- Group of four students from Denmark as a team, we designed a mobile app called Help4You using Figma. The app is for the users to find a psychologist online based on their preferred languages and timezones
- Learned wireframing, prototyping using Figma to build a mobile app together as a team
- [ReDI School website link](#) 

October 2023 - November 2023
Front-End Web Developer

CHINGU-VOYAGE V46 - TIER 2 - GROUP PROJECT

- Group of four developers and one UI/UX designer from Europe
- We built a React web app called Zest. Using this app users can search recipes by its ingredient name
- We have implemented responsive design and dark/light theme design
- We divided the app into small components and used Trello as a project backlog and google docs as a meeting backlog
- My task was to implement Redux store, header and footer & The project is hosted online using Netlify
- [GitHub Repo Link](#)  [Hosted On](#) 

October 2023 - November 2023
Front-End Web Developer

CHINGU-VOYAGE V46 - TIER 1 - GROUP PROJECT

- Group of three developers and one UI/UX designer from Spain and London
- We built a web application using Semantic HTML, CSS and JavaScript. The app is called ReciPick, where users can search recipes by its ingredient name
- We divided the tasks to build this app together & we used Jira as a project backlog and google docs as a meeting backlog
- My task was to build recipe cards, modals, header and footer & The project is hosted online using Netlify
- [GitHub Repo Link](#)  [Hosted On](#) 

August 2023 - September 2023
Front-End Web Developer

CHINGU-VOYAGE V45 - GROUP PROJECT

- Group project with four remote team members from Europe
- We built a react web app called Fireball Meteorite Strikes. This web app is to see meteorite data from NASA database
- We divided the app into small components and used Trello as a project backlog and google docs as a meeting backlog
- My task was to build a search component & implement APIContext. APIContext was new for me to learn and implement on this project & we used Netlify to host our project online
- [GitHub Repo Link](#)  [Hosted On](#) 

August 2023 - September 2023
Front-End Web Developer Intern
EMOGRAPHICS

- Building new features for emologic web app under development
- React, TypeScript, Tailwind
- [Emographics website link](#) 

July 2023 - August 2023
Ruby On Rails Developer Intern
MAKEITGOODAGAIN (MIGA)

- Building new features (UI) for MIGA using Ruby on Rails, slim and CoffeeScript
- Ruby on Rails, slim, CoffeeScript
- [MakeltGoodAgain\(MIGA\) website link](#) 

October 2021 - August 2022
Front-End Web Developer
JO INFORMATIK - HELSINGØR

- Public FilArkiv - CSS, WCAG - Web Accessibility
- Blazor components, SCSS, C#
- [Public FilArkiv](#) 

September 2020 - October 2021

- QGIS Python plugin using QT Designer and Python

Front-End Web Developer
JO INFORMATIK - HELSINGØR

- Kortkomponent using HTML, CSS, Javascript
- Vue Kortkomponent using Vue, Typescript
- [GitHub Repo Link](#) 

October 2019 - November 2019
Front-End Web Developer
CHINGU-VOYAGE 12 - SOLO PROJECT

- Built a cloned vaersgo single page website using HTML,CSS and React
- It is a ecommerce website, which can be used to purchase home appliances
- Learned to use lazy loading for the image heavy site like this and used Grid layout and practiced to host this site using Netlify
- [GitHub Repo Link](#)  [Hosted On](#) 

September 2019 - October 2019
Front-End Web Developer
CHINGU-VOYAGE 11 - SOLO PROJECT

- Built a cloned kickstarter single page website using HTML,CSS and React
- Applied previous projects React knowledge to finish this solo project and hosted the site using Heroku
- [GitHub Repo Link](#)  [Hosted On](#) 

June 2019 - July 2019
Front-End Web Developer
CHINGU-VOYAGE 09 - GROUP PROJECT

- Group project with two remote team members
- Built a dynamic web app to showcase shoes using HTML,CSS and React
- We divided the app into different components and used Trello for project management
- Learned React basic and applied the knowledge to build this shoe app and practiced to use Trello and learned to host the site using Heroku
- [GitHub Repo Link](#)  [Hosted On](#) 

May 2019
Front-End Web Developer
CHINGU-VOYAGE 09 - PREWORK-SOLO-PROJECT

- Built a chrome extension called INITAB using HTML,CSS and JavaScript
- First time experience to build and style an extension and used JavaScript to implement a live clock
- [GitHub Repo Link](#)  [Hosted On](#) 

March 2019 - April 2019
Front-End Web Developer
CHINGU-VOYAGE 08 - GROUP PROJECT

- First time experience to work with two remote team members from England and Uganda
- Built a cloned Chingu single page website using HTML, CSS and JavaScript
- Used GitHub board to track our tasks
- Learned to use gitHub board, shared the workload and completed the project together with my team members
- [GitHub Repo Link](#)  [Hosted On](#) 

February 2019
Front-End Web Developer
CHINGU-VOYAGE 08 - PREWORK-SOLO-PROJECT

- Built TickyBot website using HTML, CSS and vanilla JavaScript
- Learned to use simple vanilla javascript and media queries
- [GitHub Repo Link](#)  [Hosted On](#) 

EDUCATION

August 2017 - January 2018
M.Sc. Programme

First semester at ITU - M.Sc. programme Software Development, Advanced Computing
Subjects: (PCPP) Practical Concurrent and Parallel Programming, Algorithm Design, Big Data Management, Critical Systems and Security Seminar

August 2016 - January 2017
Pædagog - uddannelsen UCC

First semester at Pædagoguddannelsen UCC- Hillerød
Pedagogue Education

August 2014 - May 2015
FIF kursus - UCC

Forberedelseskursus for indvandrere og flygtninge på UCC- Skovlunde
One year preparation course to study a Pedagogue Bachelor Degree

2003 - 2006
MCA - Bharathidasan University - India

Master of Computer Applications
Three years professional post-graduate programme of computer application development, learned to work with tools meant to develop better and faster applications

2000 - 2003

BCA - Jamal Mohamed
College - Bharathidasan
University - India

Bachelor of Computer Applications

Three years under-graduate programme of computer applications, learned subjects such as database, networking, data structure, core programming languages like C and Java

1998 - 2000

St.Joseph's Girl's Higher
Secondary School - India

Higher Secondary Schooling

1993 - 1998
